CS 4320: Machine Learning

Assignment: Final Project Finish

In the final project series of assignments, you will extend your machine learning understanding and experience, by designing, completing, and presenting your own project.

Results Submission

Submit a document describing the results obtained by your project, briefly describe your process. Include metrics as appropriate to back up the quality of your result.

Submit a PDF of your document to the canvas assignment.

Commit and push your code base, and data if of reasonable size.
