# SE 3010: Android Application Development

## **Assignment: GeoQuiz**

### Requirements

- Create a simple Android application, GeoQuiz, as described in Chapters 1-4 and 7.
- Additionally, read Chapters 5-6 and 8. Code implementations are optional for these chapters.

#### **Resources**

• Refer to the Android developer documentation as needed when completing your assignment.

#### **Submission**

- 1. Submit your project using Git and GitHub. Start by creating a repo for this assignment <a href="here">here</a>.
- 2. Show your completed assignment to the instructor during class or office hours to receive credit.
