**Docker 2**

**Description**

Search for the lab on Pluralsight titled “Introduction to Docker” and complete it.

In this lab you will:

- create an container based on an image.
- create your own image
- publish the image to gcr (like dockerhub, but only on google)

**To Pass off**

Prove that you have done it. We will pass this off in class. You should be able to demonstrate that the lab passed at the checkpoint.
