IT4200 - Devops Lifecycle Management

Fall 2022 Syllabus

Takes students through the DevOps lifecycle. Students will develop practical skills in continuous integration, cloud provisioning, configuration management, continuous deployment, continuous monitoring, and continuous feedback.

Prerequisites: (CS1400 and IT2400) or CS2810

Course fee: The fee for this course is $20.00. This will be use to pay for a lab assistant and replace aging hardware.

Course Time: M,W,F 8:00-8:50 am in Smith 107

Final Exam: Mon Dec 14, 7:00am - 8:50am

Professor: Brock Morrison

Objectives

At the end of the course, students will be able to:

- Utilize a version control system
- Utilize basic scripting to automate parts of the DevOps lifecycle
- Describe and configure continuous integration
- Describe and configure continuous delivery
- Use automated tools for provisioning and configuration.

Resources

Texts

There are several links and other readings given throughout the course. All readings will be free and publicly available on the internet.

Computer Resources

Each student should have their own laptop. You will also have access to virtual machines to complete most of the tasks.

Course Website

This course has an accompanying website. You are responsible for announcements, the schedule, and other resources posted on the website. Assignments and grades will be managed using Canvas, which requires a valid Utah Tech username and password. The course website is accessible at http://computing.utahtech.edu/courses/.

Assignments and Exams

Reading

The student is responsible for reading the material in the textbook. A reading schedule is provided with the class schedule on the course website. The student is expected to read the material before the class in which it is discussed. The book also includes material beyond what we will discuss in lecture, which you are encouraged to study on your own. Feel free to bring questions from the reading to lectures or to office hours.

Assignments

It is important that you start early and get each of your assignments done before its due date. Many
problems will take much longer to solve in a single sitting than in many shorter sessions. Give yourself time to think; sleep on difficult problems. Finish early so you can go back and refine your initial approach.

Assignments are due on the date listed in the schedule, and must be submitted according to instructions. Your instructor will tell you how to appropriately submit assignments.

**Participation**

Participation points will come from online discussions and any other relevant participation stuff that we do throughout the semester. A lot of these points will revolve around the readings we do. Sometimes points are awarded for attendance. The final presentation is also part of the participation points.

**Exams**

There will be several exams given throughout the semester. Any missed tests will need to have the Divisional Dean’s approval before you can take the test.

**Grading**

Projects and exams each contribute to your point total.

The breakdown for the above items is as follows:

- Projects = 40%
- Participation = 15%
- Tests = 45%

Here is the grading scale:

```markdown
>= 94 = A  
>= 90 = A-  
>= 87 = B+  
>= 84 = B   
>= 80 = B-  
>= 77 = C+  
>= 74 = C   
>= 70 = C-  
>= 67 = D+  
>= 64 = D   
<  64 = F
```

**Course Policies**

**Absences**

Students are responsible for material covered and announcements made in class. School-related absences may be made up only if prior arrangements are made. The class schedule presented is approximate. The instructor reserves the right to modify the schedule according to class needs. Changes will be announced in class and posted to the website. Exams and quizzes cannot be made up unless arrangements are made prior to the scheduled time.

**Time**

Courses should require about 45 hours of work per credit hour of class. This class will require about 135 hours of work on the part of the student to achieve a passing grade, which is approximately 9 hours per week. If you do not have the time to spend on this course, you should probably rethink your schedule.

**Late work**

Assignments that are turned in by the due date and that are done correctly will receive full points.

Late assignments can be turned in until the exam is given which covers the assignment. You may receive a reduced score on the late assignment.

Assignments will not be accepted after an exam has been given that relates to those earlier assignments.
Any exceptions must be discussed with the instructor. Computer failure does not qualify as an excuse for late work.

**Cheating and Collaboration**

It is ok to talk to each other and to get help from each other, but in the end, everything should be your own. You should NOT copy/paste. You should know what cheating is. Cheating can be penalized with an ‘F’ on the assignment, and ‘F’ in the course, and/or appropriate annotation on campus-wide student records.

**Important Dates Fall 2022**

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>

**Disability Statement**

DSU strive to make learning materials and experiences accessible for all students so If you are a student with a medical, psychological, or learning disability or anticipate physical or academic barriers based on disability, you are welcome to let me know so we can discuss options. Students with documented disabilities are required to contact the Disability Resource Center located in the North Plaza Building, Next to the Testing Center (435-652-7516) to explore eligibility process and reasonable accommodations related to disability.

**Title IX Statement**

DSU seeks to provide an environment that is free of bias, discrimination, and harassment. If you have been the victim of sexual harassment/misconduct/assault we encourage you to report this to the college’s Title IX Director, Cindy Cole, (435) 652-7731, cindy.cole@dixie.edu. If you report to a faculty member, she or he must notify the Title IX Director about the basic facts of the incident.

**Email Disclaimer**

You are required to frequently check your campus email account. Important class and university information will be sent to your campus email account, including Utah Tech bills, financial aid/scholarship notices, notices of canceled classes, reminders of important dates and deadlines, and other information critical to your success at Utah Tech and in your courses. To access your campus email account, visit mail.utahtech.edu. Your username is your Digital ID (e.g. D00111111) If you have forgotten your PIN, visit my.utahtech.edu and click the “Forgot Pin” button.
